Maison Verlaine SA - RFP: Headless E-commerce Platform

Request for Proposal - Maison Verlaine SA (Brussels)

Maison Verlaine sells handmade chocolates online in Belgium, France and the Netherlands. We are replacing our Magento 1 shop with a modern headless e-commerce site: product catalogue (~400 SKUs, FR/NL/EN), cart and checkout with Bancontact and card payments, gift messages, corporate bulk orders, and an integration with our Odoo ERP for stock and invoices.

Please include timeline, team and price. Go-live before Valentine's Day would be ideal.

Kind regards,

Laurent Dubois, Directeur Digital
